

AGENDA
MAY 12-15, 2026

WHERE OPERATIONAL RESILIENCE TAKES CENTER STAGE

Join leaders across emergency management, healthcare, defense, public safety, and critical infrastructure for four immersive days of learning, collaboration, and innovation. Juvare Elevate 2026 brings together our global user community to explore what's new, what's next, and what's working across platforms, sectors, and real-world response. From hands-on training to strategic main stage sessions, Elevate 2026 is built to help you advance your mission and elevate the impact of your work.

After registering, users will receive access (via email) to a virtual portal that has information on sessions, speakers, and sponsors, as well as the ability to chat with members of the Juvare team and build out a personalized schedule. Use the agenda below to help you plan your experience!

- **Our team is still finalizing times with additional client and partner speakers – check the Elevate portal regularly for the newest sessions!**
- **All times are in EDT.**
- **To help users put together the most impactful schedule for themselves, we've noted the target audience for use case & product demo sessions. Note, though, that all sessions will be recorded and available after the conference.**
